OPENING ON TUESDAY.

THE GROWTH OF HOMOEOPATHY.

Seven Physicinus Will Be in Attendance Daily-The Departments and Other Arrangements-The Only Free Dispensary in the West End.

The latest and probably the greatest schievement in Richmond by the homocopathists is the establishment of a free rom that day forward will be open bexcept on Sundays, for the dispensing of he remedies.

The dispensary will be situated at No. ill east Main street, a very desirable location, if it is to carry out the purposes or which it is intended.

The dispensary will contain six rooms, n addition to the waiting-room. Dr. H. S. Corey has been appointed as the resident physician, and general supervisor. Dr. C. A. Mercer will have charge of the lental department. Dr. George L. Stone of nervous complaints, and general mediine; Dr. G. A. Taber will have charge of children's diseases and general mediine; Dr. H. S. Corey of the surgical department; Dr. A. L. Marcy of woman's liseases; Dr. E. C. Williams of skin troubles, and Dr. G. F Bagby of the eye, oar, and throat affections and general

A SPLENDID EQUIPMENT. The dispensary is equipped with all the best materials for the treatment of the sick. The stock of medicines is a very large one, and, through the generosity of friends, the establishment has been fur-sished and decorated with the greatest

are and the best taste.

The movement for the establishment of a free dispensary in Richmond was set on foot at the State meeting of homoco-pathic physicians, held in the month of May, 1895. A committee was appointed at that time to take the matter up and tarry the suggestions of the meeting out if they were found to be feasible. The committee was composed of Dr. Bagby (chairman) and Drs. Taber and Marcy. Some steps were taken, but nothing was accomplished, and the matter remained abeyance until the meeting of homocoathle physicians from all parts of the tate, held at the end of last year. At his meeting the committee appointed to carry out the same suggestions in Nor-folk as had been made to the Richmond bommittee reported that there was a dis-pensary in full and successful operation in the City by the Sea. This announcement acted as a spur to the Richmond ommittee, and the matter was vigorously prosecuted here. In November a list of ladies was selected to constitute a heard of managers, but it was decided to postpone action until after Christmas.

WORK OF TWO MONTHS. The committee met about the middle of January, and have met every week since, carrying out the idees of the Board of Managers. Supplies and medicines were procured, quarters were leased, and the Finance Committee was induced to include the matterians. appropriation of \$200.

The enterprise has met with very hearty support, and will undoubtedly prove a great boon and blessing. The efficers of the Board of Directors are airs. George P. Stacey, president; Miss Loula Williams, secretary, and Mrs. Joseph B. Montgomery, treasurer.

It is understood that the Committee on Streets will offer no objection to the request of the Traction Company.

The Committee on Health met last night and transacted routine business.
